DETAILED ACTION

Priority

Applicant has obtain the benefit of priority based on priority papers filed in parent Application No. 09/914,043 under 35 U.S.C. 119(a)-(d) or (f). To satisfy the requirement of 37 CFR 1.55(a)(2) for a certified copy of the foreign application, applicant has identified the 09/914,043 application containing the certified copy.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 10 February 2004 has been considered by the examiner.

Allowable Subject Matter

Claims 22-38 are allowed.

Reason for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art fail to disclose or suggest a glass composition having the composition as recited in the instant claims, which result in the recited properties specifically a light transmission (TLA4) and an excitation purity (P) which fulfills the equation

$$P > -0.3 \text{ XTLA4} + 24.5.$$

The Applicant successfully argues that Shelestak et al., U.S. Patent 6,313,053, Higby et al., U.S. Patent 5,780,372, and Krumwiede et al., U.S. Patent 6,103,650 do not fulfill the relationship between the light transmission (TLA4) and an excitation purity (P) which fulfills the equation: $P > -0.3 \text{ XTLA4} + 24.5$. See Applicants' arguments and charts showing the TLA4 and excitation purity relationship filed 10 February 2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
